Second combined Geriatric Urology Symposium
Friday, April 2, 2010

Recognizing the increasing importance of Geriatric medicine to the practice of Urology, Drs. Joseph Basler and Elizabeth Glazier have continued their efforts to incorporate Geriatric curriculum into the current Urology Residency Program. This symposium will further those efforts by offering the community an agenda filled with a broad spectrum of topics that can be used by all persons serving the healthcare community.

Event: 2nd Annual Geriatric Urology Symposium
